

# Aslan Madi

8-708-567-02-16 | [asmadi.rus@mail.ru](mailto:asmadi.rus@mail.ru) | [linkedin.com/in/madi-aslan](https://linkedin.com/in/madi-aslan) | [github.com/madiaslanov](https://github.com/madiaslanov)

## EDUCATION

### Kazakh British Technical University

*bachelor, Information System*

Almaty

Aug. 2023 – May 2027

### Almaty Technology College

*secondary specialized education*

Almaty

Aug. 2020 – Jun 2023

## EXPERIENCE

### Junior Frontend Developer

*Self-Study / Freelance*

Jan 2024 – Present

*Remote*

- Built interactive and responsive web interfaces using React, TypeScript, and JavaScript
- Utilized modern UI libraries such as Tailwind CSS and Material UI for efficient styling and layout
- Applied key React concepts including components, props, hooks, and routing
- Gained experience in state management using Redux and Zustand
- Practiced best development workflows with Git, GitHub, and modular project structure
- Focused on writing clean, reusable, and maintainable code following industry standards

### Fullstack Developer (nFactorial Incubator)

*nFactorial Incubator (Bootcamp)*

Jun 2025 – Aug 2025

*Almaty / Remote*

- Completed an intensive 10-week bootcamp focused on building fullstack web applications
- Developed "Lunch Roulette" — a fullstack app for random restaurant selection with filters and history
- Worked with technologies including React, Next.js, TypeScript, Zustand, FastAPI, and PostgreSQL
- Gained experience in authentication, RESTful APIs, component design, and state management
- Collaborated in a startup-like environment with code reviews, mentorship, and weekly demos

## PROJECTS

### Lunch Roulette | *React, TypeScript, Node.js, Tailwind CSS, Material UI, Redux Toolkit*

2025

- Created a web application that suggests random dining places based on user preferences
- Implemented filtering by budget, cuisine, and wait time; added history tracking
- Developed a To-Do list feature for users to manage their dining plans
- Used React with TypeScript for frontend, and Node.js for backend logic

### Social Network | *React, Redux, REST API, GitHub*

2025

- Developed a social networking application using React and Redux for state management
- Implemented REST API for data fetching and user interactions
- Utilized GitHub for version control and project collaboration

### To-Do List | *TypeScript, React, Redux Toolkit, GitHub*

2024

- Built a simple task management application using vanilla JavaScript
- Implemented local storage for saving tasks persistently
- Hosted and managed the project on GitHub

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, HTML, CSS, Python

**Frontend:** React, Next.js, Redux, Zustand, Material UI, Tailwind CSS

**Backend:** Node.js, FastAPI, Flask

**Database:** PostgreSQL

**Developer Tools:** Git, GitHub, WebStorm, VS Code, Visual Studio

**Other:** REST API, Responsive Design, Component-Based Architecture
